

Tailored Growth Proposal for your Artist Account

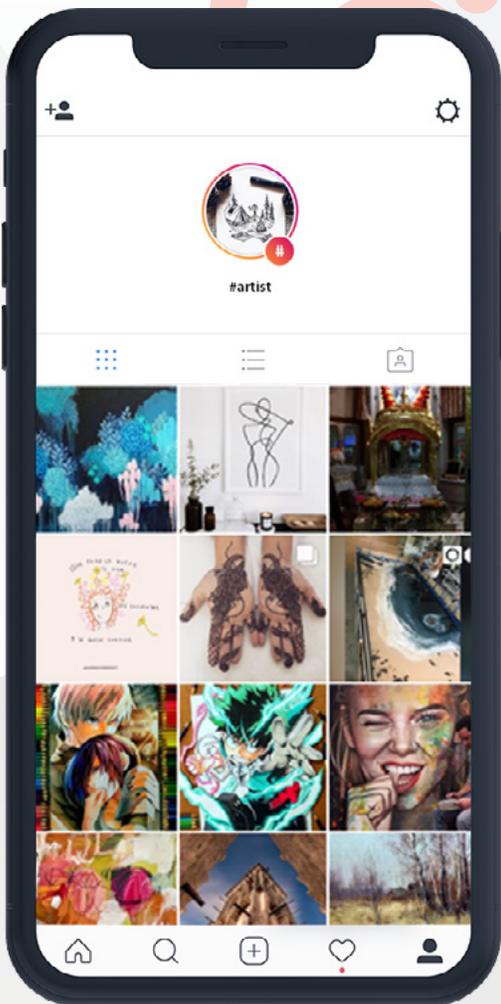

Thank you for allowing us to share with you the power of organic Instagram marketing for growing your page. Please read this proposal and I'm sure you will agree that this service is a must-have for achieving your goals.

WHY YOU NEED THIS

You are an artist. Your fans are everywhere and they are searching on Instagram for new art to interact with. These are your potential fans that want to follow your journey. However, these users do not know that you exist yet.

Artists (actors, musicians, etc) are some of the most followed people on Instagram because of the amazing, unique content that they create. In your business, having a large, active Instagram following has been directly correlated with higher earnings per job and longer-lasting fame.

Using the same growth techniques that have been proven to work on other artist's accounts, we are able to grow your account at an average of 6,000 new, active followers per month. These new followers are directly converted into fans that will become some of your closest and most loyal.

"Everyone is trying to get noticed on Soundcloud and YouTube but Instagram has been our secret weapon in landing awesome gigs! When we play gigs it is always our Instagram fans that show up first!"

SOUNDS GREAT! BUT HOW?

That's where we come in. By following a simple 5 step plan that we have employed for over 500 Instagram artists world-wide, your Instagram experience will change forever.

1. **Strategy:** 1 on 1 coaching session with our top Instagram Guru to identify your target audience, establish a content and posting strategy, and teach you some hidden tricks.
2. **Targeting:** We will find the Instagram users that are most likely to follow & interact with your Instagram page. They are selected based on accounts they are currently following, what they are posting about, and how many followers/following they each have.
3. **Interaction:** We need to let these users know you exist. By performing genuine, organic interactions such as Targeted Comments, Likes, and Follows, these users will flood to your page every single day. We perform around 2000 interactions PER DAY.
4. **Competitor Analysis:** We will use data that we've built from our other Instagram artists, including the keywords that are most successful, and target accounts that are most similar in order to skyrocket your growth!
5. **Machine Learning:** We are lucky to operate the most powerful machine learning software in the world for Instagram marketing. We are constantly analyzing our targeting strategies and interactions to continue improving and growing faster.
