Personal trainers using our service have reported a 300% increase in bookings and are now charging 5 times as much for higher profile clients. Our clients have also been discovered and featured in magazines, commercials, and many online ads.

"I always wanted to make a career in fitness but just couldn't get past 5k followers. Instelite has literally made my dreams possible. People are DMing me nonstop asking for personal training, tips, and more. I am on the verge of getting sponsored by a major supplement company too!"

SOUNDS GREAT! BUT HOW?

That's where we come in. By following a simple 5 step plan that we have employed for over 500 Instagram fitness accounts world-wide, you will soon join the ranks as a Recognized Instagram Influencer.

1. **Strategy:** 1 on 1 coaching session with our top Instagram Guru to identify your target audience, establish a content and posting strategy, and teach you some hidden tricks to get you paid for your posts.
2. **Targeting:** We will find the Instagram users that are most likely to follow & interact with your Instagram page. They are selected based on accounts they are currently following, what they are posting about, and how many followers/following they each have.
3. **Interaction:** We need to let these users know you exist. By performing genuine, organic interactions such as Targeted Comments, Likes, and Follows, these users will flood to your page every single day. We perform around 2000 interactions PER DAY.
4. **Competitor Analysis:** We will use data that we've built from our other Instagram fitness accounts, including the keywords that are most successful, and target accounts that are most similar in order to skyrocket your growth!
5. **Machine Learning:** We are lucky to operate the most powerful machine learning software in the world for Instagram marketing. We are constantly analyzing our targeting strategies and interactions to continue improving and growing faster.
