

Tailored Growth Proposal for your Modeling Account

Thank you for allowing us to share with you the power of organic Instagram marketing for growing your page. Please read this proposal and I'm sure you will agree that this service is a must-have for achieving your goals.

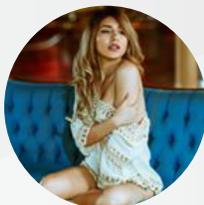

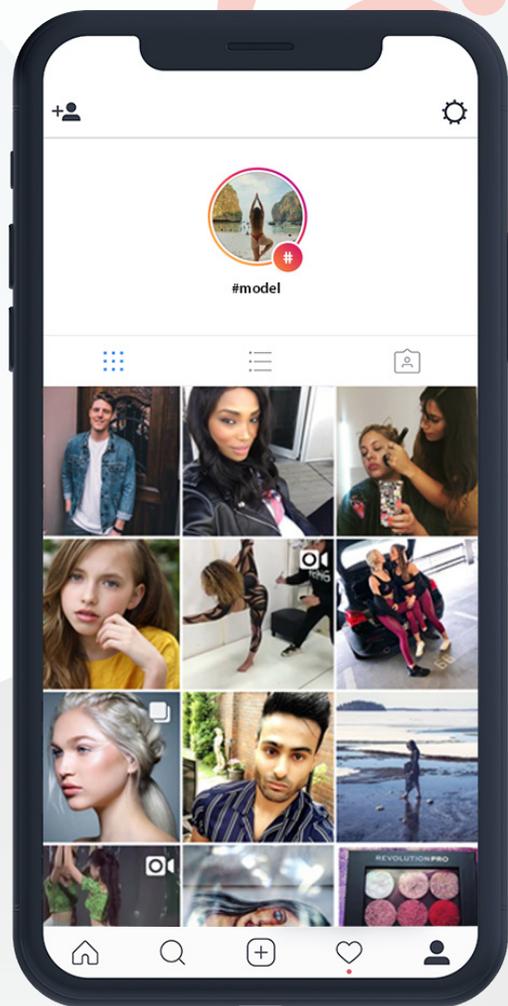

WHY YOU NEED THIS

When you are a successful Instagram model, the world is at your disposal. Every photographer wants to work with you, every event wants you to attend, and every brand wants you to represent them.

- » 10k Followers – Work with some of your favorite brands
- » 25k Followers – Get paid for promotional posts
- » 50k Followers – Exclusive VIP invites and more
- » 100k Followers – Earn up to 6 figures per year with brand endorsements

An Instagram model is a dime-a-dozen. Although there are countless of other Instagram models, there are millions of users that are waiting in their seats for an interaction from you. The common misconception is that you are competing against thousands of other girls for fans. Actually, it's quite the opposite.

We have turned over 500 aspiring Instagram models into household names. Using our proven methods, we convert your competitor's fans into your fans. Our average Instagram model gains 8000+ new, active followers per month. We know exactly what targeting techniques work best to reach your audience.

"I was always too short to work for a modeling agency. Instelite helped me achieve all of my modeling goals. Now agencies are asking to work with me."

SOUNDS GREAT! BUT HOW?

That's where we come in. By following a simple 5 step plan that we have employed for over 500 Instagram models world-wide, you will soon join the ranks as a Recognized Instagram Influencer.

1. **Strategy:** 1 on 1 coaching session with our top Instagram Guru to identify your target audience, establish a content and posting strategy, and teach you some hidden tricks to get you paid for your posts.
2. **Targeting:** We will find the Instagram users that are most likely to follow & interact with your Instagram page. They are selected based on accounts they are currently following, what they are posting about, and how many followers/following they each have.
3. **Interaction:** We need to let these users know you exist. By performing genuine, organic interactions such as Targeted Comments, Likes, and Follows, these users will flood to your page every single day. We perform around 2000 interactions PER DAY.
4. **Competitor Analysis:** We will use data that we've built from our other Instagram models, including the keywords that are most successful, and target accounts that are most similar in order to skyrocket your growth!
5. **Machine Learning:** We are lucky to operate the most powerful machine learning software in the world for Instagram marketing. We are constantly analyzing our targeting strategies and interactions to continue improving and growing faster.

@adielgrech

"Thanks to Instelite I have been getting so much free stuff and photographers are fighting to work with me. I'm so thankful."
