

Tailored Growth Proposal for your Online Store

Thank you for allowing us to share with you the power of organic Instagram marketing for growing your **E-Commerce Business**. Please read this proposal and I'm sure you will agree that this service is a must-have and a huge advantage for anyone in your type of business.

WHAT YOU'RE DOING NOW TO GENERATE SALES

What is in every handbook for generating sales on your online store? Facebook ads, Google AdWords, etc. Over the past 5 years, all of these advertising platforms have become unbearably oversaturated and expensive. You are competing against million-dollar companies for the same ad space and paying each time someone sees/clicks your ad. I'm sure you can agree that this is madness.

- » 800% less expensive than PPC
- » Continuous investment in your business
- » Generate over 10,000 new leads per month
- » Double your website traffic
- » Validate your online store

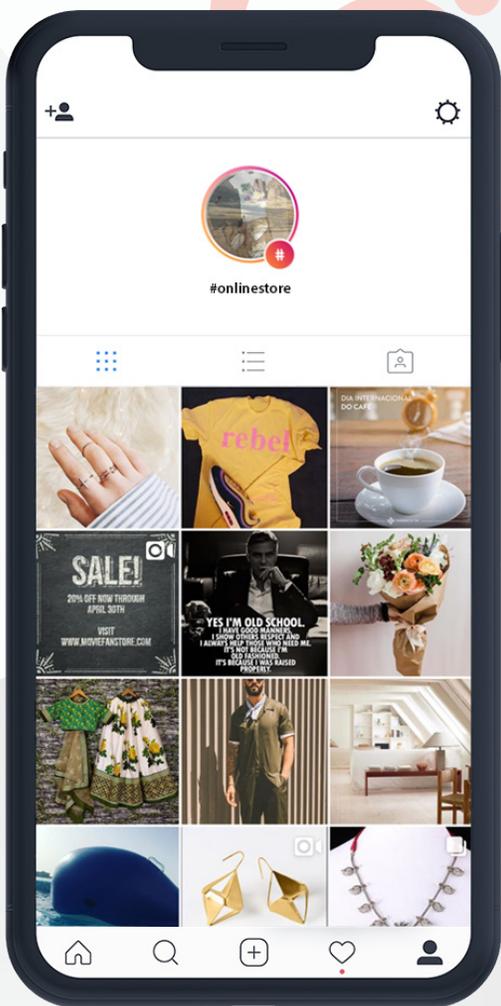

WHAT YOU SHOULD BE DOING

Instagram marketing is the new SEO. Before you could optimize your website to get on the top page of google. Now, you'd be lucky to ever get an organic hit on google. So how are people going to find your store without paid ads? Organic Instagram Marketing!

By creating a page that your ideal demographic can enjoy, not only will they find the page organically, but they will follow you! This is better than any email list or hot lead. These are the people that are going to purchase from you. What's better? Their friends will follow you too and like a snowball effect, your page starts to generate thousands of new potential buyers every month – without spending a dime.

"We have gone from a simple nutritional supplement to one of the most followed EDM pages on Instagram. Using analytics, we have found that over 80% of our clients have found us through Instagram!"

SOUNDS GREAT! BUT HOW?

That's where we come in. By following a simple 5 step plan that we have employed for over 100 E Commerce stores world-wide, you will soon join the ranks of a Recognized Instagram Brand

1. **Strategy:** 1 on 1 coaching session with our Executive Instagram Guru to identify your brand, establish a content and posting strategy, and will teach you some huge tricks to generate more sales using tools like Instagram Stories.
2. **Targeting:** We will find the Instagram users that are most likely to follow & interact with your Instagram page. They are selected based on accounts they are currently following, what they are posting about, and how many followers/following they each have.
3. **Interaction:** We need to let these users know you exist. By performing genuine, organic interactions such as Targeted Comments, Likes, and Follows, these users will flood to your page every single day. We perform around 2000 interactions PER DAY.
4. **Competitor Analysis:** Every new lead will receive a personalized DM that will contain a link to your store and a coupon code if you choose. Unlike spam emails, these DMs have a 83% click through rate!
5. **Machine Learning:** We are lucky to operate the most powerful machine learning software in the world for Instagram marketing. We are constantly analyzing our targeting strategies, DMs, and interactions to continue improving and growing faster.
